

A WAKEN TO THE RUNES ~ M MASTERY: PERSONAL PROJECT SCOPING TEMPLATE

This template is for those of you who like a template and want to use it to do some brain-storming for your personal project. There is a reminder of what the columns mean on the next page.

COULD DO	Comfort zone/ learning zone	Purpose/ desire	Realistic/ reasonable	Collaboration

A WAKEN TO THE RUNES ~ M MASTERY: PERSONAL PROJECT SCOPING TEMPLATE

Could do: make as many rows as you need listing the things you could include in a personal project through your Mastery year. Remember, you can include a number of smaller items in a single project (e.g. make essential oils, do a journey with each rune)

Comfort zone/ learning zone: have a little check in with yourself as to whether the 'could do' is in your comfort zone or extending into your 'learning zone'

Purpose/ desire: how strongly do you feel a sense of determination/ excitement/ tingling/ positivity/ motivation for this 'could-do' (You can mark on a scale of 0-5 if this helps)

Realistic/ reasonable: consider the following:-

- How much time will this take? How much time can you allocate?
- What expertise will you need?
- What materials will you need
- What support will you need?
- What could get in the way and what are your options for over-coming these if needed?

Collaboration: If someone else offered to help with this 'could-do' would that make a difference? If someone else was to do a project like this would you be interested in contributing/ supporting?
